## PROFESSIONAL SUMMARY

React Native engineer with 7+ years of experience building mobile apps, primarily with React Native and TypeScript, with native module work in Swift and Kotlin when needed.

Specializes in performance optimization: frame drops, cold start times, bundle size analysis. Experienced with AI-assisted development tools (Claude, Codex, OpenCode) for rapid feature bootstrapping. Led small teams, mentored junior developers, and maintained CI pipelines and build infrastructure.

## TECHNICAL SKILLS

React, React Native, TypeScript, JavaScript, Expo, Swift, Kotlin, Java, Objective-C, UI/UX Optimization, Performance Tuning, Claude Code, Codex, OpenCode, Agentic AI

Tools: Xcode, Android Studio, Jira, Figma, VSCode

## PROFESSIONAL EXPERIENCE

### Senior Frontend Engineer (React Native)

Apr 2025 - Mar 2026

Thndr | Remote, Dubai, UAE

Stack: React, React Native, TypeScript, NX

- Built end-to-end order flow for ADX markets: limit orders, market orders, advanced limit orders, and recurring orders
- Migrated 3 markets (Egypt, US/Alpaca, ADX) to a unified config-based model, reducing conditional complexity across the platform
- Defined technical initiatives at squad level and onboarded engineers into critical workflows
- Collaborated with design and product teams on order and subscription UX improvements

### Software Engineer III

Apr 2024 - Apr 2025

Dubizzle | Dubai, UAE

Stack: React, React Native, TypeScript, Expo, React Native Web

- Added native and JavaScript error boundaries with custom crash screens across 3 platforms (iOS, Android, Web)
- Implemented feedback/rating popup to improve app store ratings
- Enabled draft listings and improved listing screen UI across 3 platforms
- Upgraded Android SDK to version 34 for Play Store compliance
- Built a billing system for agents to manage payments, reducing operational overhead

### Senior Software Engineer

Feb 2023 - May 2024

Nomo Fintech | Remote, UK

Stack: React, React Native, TypeScript (digital banking app for Kuwait, UAE, and GCC)

- Migrated 12+ complex UI components from UI Kitten to a custom design system using Storybook
- Optimized CI/CD pipelines for iOS and Android builds and deployments
- Implemented 3 Open Banking API flows: AIS (Account Information Services), PIS (Payment Initiation Services), and COF (Confirmation of Funds)

### Senior Software Engineer

Feb 2022 - Mar 2023

Breadfast | Cairo, Egypt

Grocery mobile app with 1M+ active users in Egypt.

- Resolved 20+ critical bugs and crashes as the first mobile engineer post-COVID to stabilize the app
- Led shopping and growth development, focused on user experience and customer engagement
- Introduced TypeScript to the codebase, improving code quality and maintainability
- Implemented a new design system with product/backend/QA teams
- Enhanced CI/CD pipelines for faster builds and better automation
- Mentored junior engineers and streamlined onboarding processes
- Assisted with release management and technical documentation

### Senior Software Developer

May 2020 - Jun 2022

Anspire Agency | Cairo, Egypt

- Developed React, React Native, and TypeScript applications for multiple clients
- Managed staging, production, and deployment automation
- Built admin dashboards and mobile apps with Node.js and MongoDB backend

## React Native Developer

Oct 2019 - Oct 2020

ExpandCart | Giza, Egypt

- Created 3+ custom mobile themes
- Deployed 300+ apps using Fastlane and AppCenter

## FREELANCE PROJECTS

---

**SA Growth** | Remote, Saudi | May 2022 - May 2024 → Built a beta mobile app for business growth (React Native, TypeScript)

**Baeynh** | Remote, Saudi | Jan 2023 - Nov 2023 → Built a mobile app with voice messaging, video calls, and real-time updates (Pusher)

**Eldertech** | Remote, Germany | Aug 2021 - Nov 2021 → Developed an elderly care app using AWS (Chime, Lambda, Cognito, AppSync, Amplify)

**Rabbit Scooters** | Cairo, Egypt | Feb 2020 - Aug 2020 → Migrated app to TypeScript and React Native v0.62, optimized micro-interactions

## OPEN SOURCE

---

callstack/react-native-bottom-tabs → Contributions in Swift, Kotlin, and TypeScript

facebook/react-native-website → Documentation contributions

react-native-tooltiplize → Tooltip library for React Native

react-native-notifications-utils → Notification management utilities

react-native-template → Starter template for new projects

## PUBLISHED APPS

---

Handy Todo → Task management app (Swift, SwiftUI)

Birdnest Life App → Life organization app (iOS and Android)

## EDUCATION

---

Bachelor's in Computer Science at El-Shorouk Academy, Cairo | May 2019

## LANGUAGES

---

English (Fluent) · Arabic (Native)
